

THE 7 INDISPENSABLE DIGITAL LIFE SKILLS

EVERY KID NEEDS

1. A+ SOCIAL SKILLS

Empathy, kindness, respect, civility, and more. These capacities evolve over time and are needed more than ever online.

2. REPUTATION MANAGEMENT

Everything kids post—and everything others post about them—speaks volumes about their characters.

3. KNOWING HOW TO UNPLUG

Knowing how—and why—to unplug from tech and into "real" life is a must-have skill.

4. SAFE & HEALTHY RELATIONSHIPS

Cyberbullying, sexting, online predators, and more are some of the downsides of connecting with others online. Kids must know what to do when they encounter harmful relationships.

5. PRIVACY PROTECTION

In the excitement of being online, many kids give away too much info. They must learn what is safe to share, and what is not!

6. CRITICAL THINKING

Knowing how to evaluate media for its authenticity, reliability, and bias protects kids from falling prey to misinformation online.

7. DIGITAL LEADERSHIP

Standing up to bullies, creating inspiring content, and sharing uplifting stories—these are just some of the things digital leaders do. The world needs more digital leaders.
